

The higher profit in the three categories is Technology then office supplies finally furniture.

First class higher in Technology but in other category the best class is second class.

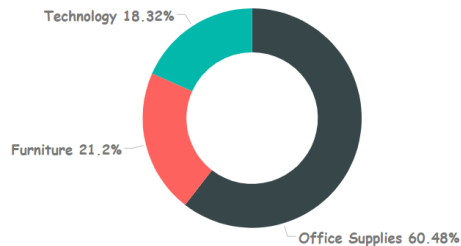

**Sum of Profit by Category**

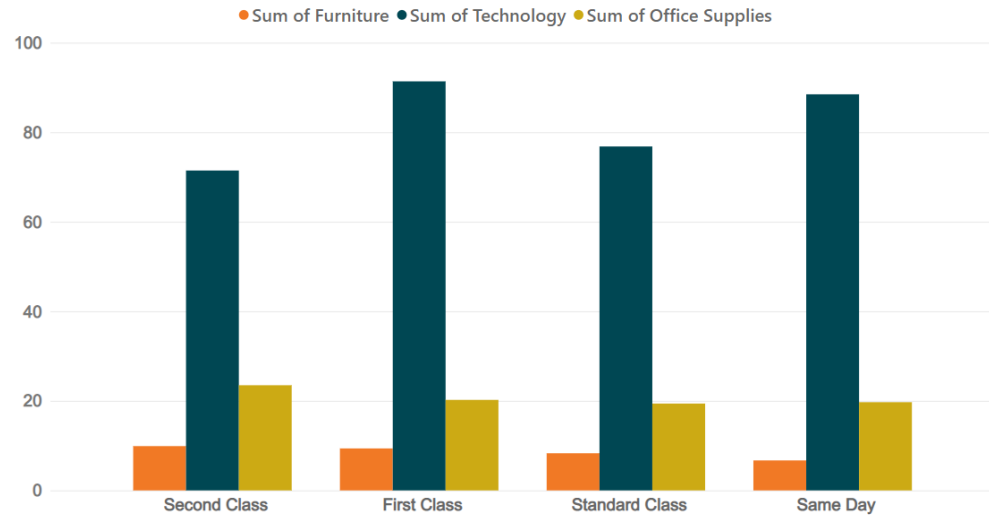

**Sum of Sales by Category**

**Sum of Quantity by Category**

## The Profit of Ship Mode Per Main Category

## Conclusion

- The supermarket spent more money on furniture sales, but as a result, there were significant losses. I think that is the cause of our supermarket loss
- Technology part have sold a few number products with high profit we can enhance earnings by give discount on some products to sell more and more.
- The profit from office supplies low in spite of the number of products very high, we can increase products number to enhance the profitable
- We should no longer market **Tables** and **Bookcases** because it generates the least profit and the most losses.

## The profit of state
